

Structured PDF Retrieval Fixture

This paragraph must be indexed directly from the PDF structure. The verification keyword is ORCHID-MODULE-ALPHA.

Module	Expected behavior
Paragraph	Indexed without a model request
Image	Analyzed only when visual enrichment is requested
Location	Returned with page number and normalized bbox

Two visual modules on the same page

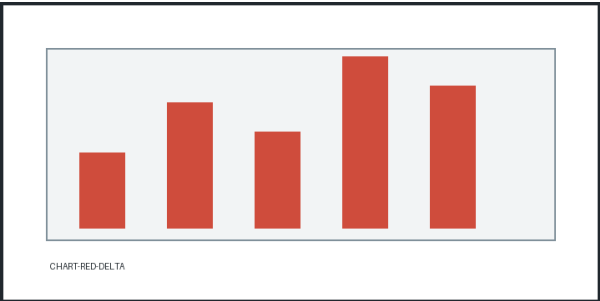

Figure 1. Red quarterly totals.

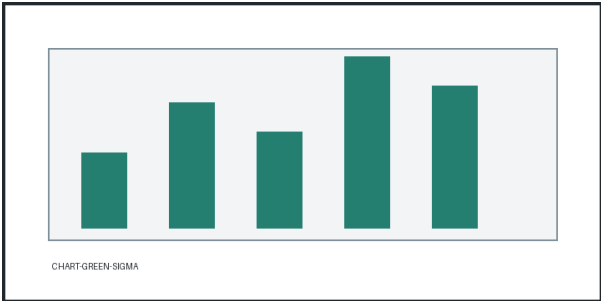

Figure 2. Green quarterly totals.

Second page fallback reference

This second page provides a separate searchable module. The verification keyword is COBALT-PAGE-BETA.
